

THE PRINCE OF WALES COCKTAIL BAR

Welcome!

In 1905, in preparation for a visit by the future King George V of England, Lord and Lady Ardilaun built the Oak and River Room Lounges as well as the Prince of Wales Bar. The Prince of Wales Bar was also Lord Ardilaun's smoking room and his motto can still be seen in the crest above the fireplace.

Our Responsibility to Mother Earth

We understand the environmental impact our business has on its surroundings and as an eco-friendly establishment, The Prince of Wales cocktail bar is continually working towards reducing its carbon footprint.

Some initiatives we have introduced to support a sustainable business and ease environmental pressures are:

- Straws** – only bio-degradable or metal straws used.
- Stirrers** – Metal or glass rod stirrers as opposed to plastic swizzle sticks.
- ‘To-Go’ Cups** – only re-usable cups available.
- Cocktail Pick** – reusable metal cocktail picks as opposed to single use plastics.
- Coasters** – reusable leather coasters instead of plastic lined or single use coasters.

Our goal; to reduce, if not eliminate, the use of disposable plastics in the service of all our beverages.

Please assist us in supporting these important environmental initiatives, should you have any questions please ask any member of staff.

Should you wish to purchase any of our personalised items as a memento of your time with us, they are available to buy from our in-house Boutique or Mrs Tea’s Boutique.

Thank you for your support.

The Old Midleton Distillery (1825-1975)

Old Midleton Distillery was famous throughout the world for Irish whiskey, but when it closed its doors for the last time in 1975, it achieved an almost mythical status and iconic part of Irish distilling legend as it became “silent”.

Since it's been fully decommissioned, those incredible and gigantic direct-fired stills that hold around 30,000 gallons of liquid had produced some of the last surviving casks maturing and aging gracefully for decades to come...

The Midleton Very Rare Silent Distillery Edition

Leading to Midleton Distillery's 200-year anniversary in 2025, Midleton Very Rare Silent Distillery Collection is made from some of those last surviving cask. A testament to the art of whiskey-making, preserving the legacy and spirit of traditional Irish distilling. Offering connoisseurs a series of six releases (chapters 1 - 6), a taste of history and unparalleled inimitable quality - The oldest ever collection of Irish whiskey yet...

Chapter 1 (SOLD OUT)

The Walled Garden

The majestic gardens as they exist today were laid out around 1868 by Lady Ardilaun. It's a beauty - more intimate and relatable than many other walled gardens, and now re-invigorated to its former glory, it is planted with fruit, vegetables, herbaceous perennials and a gorgeous hornbeam tunnel which burst into leaf after its winter slumber.

THE WALLED GARDEN LEMONADE

House Infused Fruit Tea Vodka, Walled Garden Seasonal Fresh Lemonade and Mint, handpicked at the gardens (seasonal).

Monk's Fishing House

"Nestled in Cong's serene beauty, the Monk's Fishing House echoes centuries of history and tranquillity By Lough Corrib's shores, monks once found solace in angling amid Ireland's rugged landscapes. Behind its rustic exterior, a timeless sanctuary awaits, enveloped by nature's embrace. Travellers are invited to immerse themselves in its tranquil charm, experiencing the soulful simplicity of days past." It is said that a line was connected from the fishing house with a net submerge underwater through the trapdoor to a bell in the monastery kitchen to let the cook know that there was a fresh fish available.

So, make up your mind off we go.

“Nothing remains for me any longer - Anything that does remain means nothing”

In 1908, Lord Ardilaun erected a chalet on the grounds of Ashford Castle Estate for his wife. The chalet was their favourite place on the estate and it was here overlooking Lough Corrib Lord Ardilaun took his title.

Lord Ardilaun died in 1915 and a year later his wife had an obelisk erected near the chalet in his memory. She was obviously heartbroken as the inscription on the memorial reads as above...

THE OBELISK

To capture this timeless love between Lord and Lady Ardilaun, we have created an elixir using elderflower and wild pink roses, which in season grow around the Ashford Castle Estate. We start with a cube of white sugar coated with rose hibiscus nectar. A frozen pear vodka is then added and topped with Rosé Champagne. This is beautifully garnished with our homemade lemon foam and rose petal crystals.

The Guinness Tower

Built by Sir Benjamin Lee Guinness on the grounds of Ashford Castle in 1864 as a look out. Now it is a secret hidden gem on the Estate. The tower is over 20 meters in height and once you manage to climb the 81 step spiral stone staircase to the top, you are rewarded by stunning tree top views overlooking the Ashford Estate.

(*Ruaidrí Ua Conchobain*)

The Last High King

His majesty's image is carved on the stone entrance of one of the walls at Ashford Castle and on a wooden carving at the heart of our beautiful Connaught Room's fireplace. Rory O'Connor co-founded Cong Abbey in early 1200's, it is here he retired as a monk. In the year 1198 the last High King of Ireland died and was buried at the Abbey, 30 years later He was moved and reburied beside his father at Clonmacnoise.

THE LAST HIGH KING

Through fierceness and just, the chieftains in Ireland unites. We combined the bitterness of Aperol, the sweetness and aromatics of Antica Formula Carpano and the smoothness of Slane Triple Cask Irish whiskey, in his honour.

Lady Ardilaun Tea Set

This vintage tea set was presented to Lord and Lady Ardilaun on the occasion of their 25th wedding anniversary by Jane Countess of Bantry on the 16th February 1896. Today we go back in history to create an unforgettable experience by serving you a cocktail in a vintage teapot and to celebrate the resurgence of new distilleries in the island of Ireland.

VODKA

Vodka is a clear distilled spirit that can be produced from anything containing starch or sugar, each of which affect the finished product's final taste. The most common basis are potatoes, sugar beet molasses and grain. Even though it is described as tasteless and flavourless, it is much more interesting than it might appear to the casual observer. Scrape beneath the surface and you'll find a spirit with a rich and diverse history.
